

3900LP Bench Series

Calibrated with SBI 110 LCD Indicator

The 3900LP Electronic Bench Base is an NTEP approved 5000 division bench base scale with a pole mounted indicator that can be used for a wide range of general purpose floor or bench base applications.

General weighing function is designed to weigh in lb, kg or pieces. The 3900LP can easily be set into sample mode which is ideal for counting a wide range of medium sized components.

The check weighing & check counting function is ideal for guaranteeing product or box quantities are within an agreed weight or count size and for repetitive packing applications.

With 150% overload protection, these powder coated base frames are constructed using a carbon steel tubular fabricated frame with four corner stops for extra load cell protection. The base frame is fitted with four large lockable adjustable anti-slip feet ideal for leveling the base if positioned on uneven ground.

The base is fitted with a robust, approved, aluminum IP65 (NEMA 4) load cell and is fully covered with a removable hard-wearing, food grade 304 stainless steel top pan.

The ABS housed Brecknell SBI 110 Indicator with its large, easy-to-read 2" x 6.5" LCD backlit display. The built-in battery allows this product to be used in low lit areas or in areas where power outlets are hard to find.
