PS500

Compact Light Weight Floor Scale

The PS500 Light Capacity Floor Scale is a compact and versatile weighing solution designed for general use with capacities up to 500 lb. Perfect for areas with limited space, it is ideal for shipping and receiving zones as well as production lines.

This scale boasts a rust-resistant stainless steel platform, a sleek low-profile base, and a durable ABS and steel indicator housing. It comes equipped with a standard RS232 port for easy data printing or integration with UPS/NCI shipping software.

The convenient Hold Weight function locks the most recent weight reading on the display, enabling hands-free operation.

With dual power options—battery and AC adapter—the scale supports both portable use and fixed installation on walls or desks. Optional accessories include a 34" indicator stand. PS500-36 includes green rubber mat.
