

Brecknell Rechargeable Batteries

Overview

Brecknell scales are fitted with sealed rechargeable lead acid batteries that have standard ratings and dimensions.

This makes the rechargeable batteries a service part that can be easily sourced locally.

Action

From April 4th, Brecknell will no longer supply rechargeable batteries for the scales in table below. We will provide the battery specifications to buy the replacement from a local source.

See below the list of the Brecknell scales fitted with rechargeable battery.

Brecknell Scales fitted with rechargeable batteries
